

#Jenny

*Finally I get this ebook, thanks for all these I can get now!*

---

#Rio

*Cool! I'am really happy*

---

#Markus Jensen

*I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook*

---

#Hun Tsu

*wtf this great ebook for free?!*

---

#Che Salsa

*My friends are so mad that they do not know how I have all the high quality ebook which they do not!*

---

#Diego Butler

*so many fake sites. this is the first one which worked! Many thanks*

CHAPTER 1 Driving and Mobility  
STUDY GUIDE FOR CHAPTER 1 LESSON 1  
Mobility and Driver Education

A. Driver education courses have many great benefits. What do you think the results would be in the long run, say in 20 years, on the following rates and statistics if there were no driver education courses?

1. Insurance rates  
would increase greatly because of more crashes. This would make insurance too expensive for the average young person to purchase.
2. Accident rates  
would increase greatly, especially for newer, younger drivers
3. Drinking and driving conviction rates  
would probably rise, especially for younger drivers, who might not learn about the reasons not to drink and drive.
4. Traffic deaths  
would increase greatly, especially for younger drivers.
